MEMORANDUM FOR: Director of Training

SUBJECT: Training Evaluation Program

1. Attached are two training regulations, one general and one specific, which in general describe the training evaluation program and state policies and procedures. Also attached are a profile showing the occupational interest as measured by the Strong Vocational Interest Test and a brief explanation of the meaning of this profile.

2. The regulations contain statements which are controversial. It was my intent to bring all problems into the open for high level discussion. Some of the points in the regulation will undoubtedly have to be modified because of practical conditions prevailing in TRS and TRG.

3. The profile of interest and the description of it are both tentative and are given for illustrative purposes merely to show the kind of information we can extract from the ECD testing program and transmit to the student through his supervisor. I am not yet sure that either the manner of arranging the profile or the description of it are in their final terms. The final product will, however, be very similar to those attached.
